

The Flex™ 5 is the latest innovation in rivet nut tooling from Sherex Fastening Solutions. It can come in either a pull to pressure or pull to stroke setup with an upgrade for process monitoring also available. It installs rivet nuts quickly and quietly with adjustments to pressure & stroke made with ease. This tool also features a quick change mandrel design utilizing standard socket head cap screws.

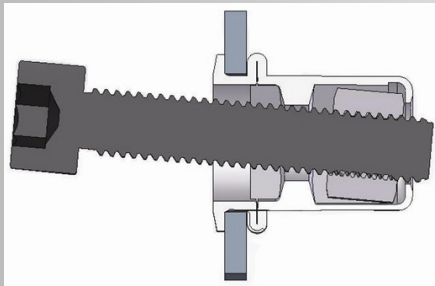

The Raw Facts:

Model # Flex-5P & Flex-5S

- Weight - 4.2 Lbs.
- 1-3 second cycle time
- Quick change mandrel design using socket head cap screws
- M3—M10 & #4-40—3/8-16 rivet nuts & M5-M8 & #10-24—5/16-24 rivet studs (One thread size included with tool)
- All aluminum design
- Push to start nose piece to spin on the fastener

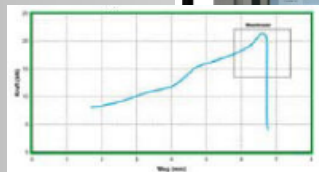

Rivet nuts

The Flex™ 5 installs most standard rivet nuts made from aluminum, steel or stainless. It can even install the revolutionary Riv-Float® floating nut by Sherex. The Riv-Float® is the only rivet nut that gives you the flexibility you need when installing panels or hardware that require a little bit of “play” during assembly.

The Bottom Line

The Sherex Flex™ 5 is a versatile tool for the most demanding applications. Whether building a simple fabrication for a point of sale display or a complex aeronautics assembly requiring detailed process monitoring, the Sherex Flex™ 5 can do the job. If you have an application where you think the Flex™ 5 would be a good fit, please contact us with the application details and we will walk through that process with you to make sure you're getting the right tool for the right job.

Did we mention it's flexible?

The Flex™ 5 is light and nimble allowing you to work in tight areas with minimal operator fatigue. Due to its quick change mandrel design utilizing standard socket head cap screws you won't have to pay \$50.00 for a mandrel ever again.

Ready?

Whether producing one off fabrications or running large production runs you should give the Flex™ 5 a serious look. It's proven technology that can save you both time and money. The Flex™ 5 is one of the most versatile, user friendly rivet nut tools available today. We look forward to hearing from you and sharing what this tool can do for your production.
