## How can we solve your tooling needs?

- **Responsiveness** - Our responsiveness is nearly unmatched as we focus on your ever changing needs.
- **Improvise, Adapt & Overcome** - If we don't have a solution, we'll figure it out. We've strategically partnered with some of the best vendors in the world and we leverage that collective brain power for your benefit.
- **Above & Beyond** - We've chased down UPS trucks for overnight shipments and provided fastener solutions to restore downed production lines the same day. We've got your back.
- **Quality Components** - As mentioned above, we have aligned ourselves with world class ISO certified manufacturers and maintain strict lot traceability of their products.
- **Price** - We strive to bring our customers the best possible value without sacrificing quality. Why save a dime now when it can cost a dollar down the road?

After serving precision fabricators and manufacturers for over 45 years, we'd like to think that we understand the daily demands that are put on your shoulders by customers. Eleventh hour engineering changes, dramatically accelerated due dates, rapid prototyping, insufficient component descriptions; the list goes on. While specializing in fasteners that get attached to sheet metal and the tools that install them, we strive to offer the best solutions, service and price to help meet your rapidly changing needs and *relieve your stress*. If any of the fasteners or tools you see here are used in your shop, we would love to have the opportunity to win your business and become an extension of your organization.
